### Linking Paper Clips

Two paper clips become linked by Magic!

#### Secret:

Fold a dollar bill into three sections as illustrated. Attach the paper clips as shown, one over the back and the center section, the second over the center and front sections. Pull on the ends of the dollar and the clips will jump off linked together!

### The Money Box

A coin appears inside an empty matchbox!

#### Secret:

The coin is hidden in the top of the box, held in place by the edge of the drawer. When the drawer is closed, the coin falls inside. Open the drawer and the coin appears.

## Easy Magic Tricks You Can Do!

### Jumping Rubber Band

A rubber band magically jumps from finger to finger!

#### Secret:

Place the rubber band over the index and middle finger of your hand. As you close your fingers, slip them into the outstretched loop as shown in the second drawing. It appears to the audience that the band is around two fingers. Open your fingers and the band will jump over to your third and fourth fingers. To make it jump back, repeat the process!

### Crayon Magic

You name the color of a crayon handed to you behind your back!

#### Secret:

Scrape the bottom of the crayon with your thumbnail. Bring your hand up to your forehead to concentrate and look at the color. After "thinking" about it, name the color!
